Our Farewell

With this issue of the DIDSBURY PIONEER the control and editorial position of the business passes out of the hands of H. E. Osmond and has been taken over by W. P. Cotton of Vancouver.

During our twenty years residence here in the position as owner and Editor of the PIONEER it has been our great privilege to take a part in building up the town and district in a great many ways, and we wish to express our sincere thanks to the public for the generous support which has been given to us. We assure them that no matter where we may go, or in what station of life we may be placed, the people of this town and district will always have a big place in our memory, indelibly placed there by our long association with them.

We wish to thank one and all for the support that they have given to the PIONEER and bespeak the same for our successor, Mr. Cotton, who comes here with considerable experience in newspaper work, and who, we feel sure, the public will find ready and willing at all times to assist them in any way possible.

Again thanking you, we make our bow and retire from the public life of the town and district of Didsbury, wishing you all happiness and prosperity.

H. E. OSMOND.

News of the Movies

"The Top of The World" which will be shown at the Opera House on Wednesday night, May 20th, proves conclusively that you can't believe your own eyes—at any rate not in the movies. James Kirkwood and Anna Q. Neilson share honors in this great picture of camera wizardry.

A grove of some of the biggest redwood trees in California, that near Santa Cruz, made a cathedral setting for some of the action in "Flying Hoofs" Universal picture starring Jack Hoxie and to be shown in the Opera House on Saturday night next, May 23rd. The story tells of the daring and self-sacrificing heroism of a sheriff who risks his life to capture a bandit and at last takes his own brother into custody. The brother is sentenced to be hanged and the sheriff takes his place in the death cell with startling results. The cast includes a bunch of the famous Universal Ranch Riders.

A LETTER

The Editor of the Pioneer has received the following letter from Mr. Freeman which explains itself:

Mr. H. E. Osmond,
Editor, Didsbury Pioneer,
Didsbury, Alberta.

I am unable to properly set in words the appreciation felt by both Mrs. Freeman and myself in connection with the scroll off given to us by the good people of Didsbury. I also appreciate the articles which appeared in your paper. Mrs. Freeman has been proud of the piano lamp and the curling handles will be a constant reminder especially in the winter time of the good times spent at the Curling rink in Didsbury.

Yours sincerely,
Earl Freeman.

PIANO FOR SALE: A splendid full toned piano in mahogany case, in good condition. Apply H. E. Osmond, Didsbury Pioneer Office.

Welcome Appreciated

The Editor,
The Didsbury Pioneer,
Didsbury, Alberta.
Dear Sir:

Major John Barnett, Superintendent of the Land Settlement Branch of the Department of Immigration in Ottawa, desires to extend through the courtesy of our paper, his appreciation for the kindly assistance extended in the reception of the Webster and Murray families by the citizens of Didsbury; the Nicholson and Ferguson families by the citizens of Carstairs; and the Chas. Shergold family by the people of Olds.

Particular mention should be made of the kindness of Mesdames Stickney and McFarlane of Westcott, who greeted the Webster and McMurray families on their arrival at their new homes; of Mrs. H.W. Wood, of Carstairs, President of the U.F.W.A. who welcomed the Nicholson and Ferguson families; and of Mr. and Mrs. R. E. Wackett of Olds, who were so kind on the arrival of the Shergold family.

The kindness displayed towards these newcomers tends to dispel the loneliness and homesickness they are bound to experience on arrival in a new country and will do much towards influencing the future citizenship of these people and enable them to surmount such difficulties and obstacles as are bound to face them on their arrival in a new country.

The community spirit displayed by these kindly actions will, we are satisfied, contribute in a great measure towards the success of these newcomers.

W. S. Woods,
District Superintendent,
Land Settlement Branch.

Owing to other matters occupying the editorial mind and time this week, consequent upon the change in ownership, a considerable amount of news has been left over.

A motor truck for express delivery between Calgary and Didsbury will commence to run on Monday, May 18th. The service is being put on by the Anderson Delivery Co. of Calgary.

The drillers completed their work on Tuesday on the town well east of the track when they struck water at a depth of 340 feet. It is understood the water has risen to within 170 feet of the top.

A meeting of the Tennis Club will be held Thursday evening in Dr. Evans' office for reorganization. The tennis courts are now being put in shape and the prospects are for a successful season.

An event that is somewhat unusual for Didsbury is staged for Saturday, May 23rd when J. V. Berscht will throw open his store for the sale of \$20,000 worth of clothing, gents' furnishings, boots and shoes etc., salvaged from the recent fire. These goods are practically undamaged and at the prices they will be offered at they will probably go quick.

On Tuesday, May 12th, a very enjoyable evening was spent at the home of Mr. and Mrs. Allen Hunsperger when about twenty young folks from the Clovermount and Westcott district gathered and played basketball.

Later in the evening lunch was served and afterwards it was decided that the next meeting would be held at the home of Mr. and Mrs. C. F. Rennie, and here arrangements will be made to organize a club. Anybody interested in out-door sports please attend the next meeting.

NOTICE

Mr. Hill from the Canadian Pacific Railway Company Investigation Department was in Town last week and has requested the Council to co-operate with the Canadian Pacific Railway Co. in putting a stop to the practice of destroying telephone and telegraph insulators. The Richer Life Of The West

The people of the prairie provinces of Canada are engaged in the very large task of converting an empire of vacant or still sparsely settled territory into a thriving nation, and in doing so are seeking to lay foundations firm and true upon which the great structure of the future shall be erected. While much has been accomplished, the days of the pioneers are by no means past, and tasks enormous in their magnitude yet call for the initiative and energies of Western people.

It is both natural and inevitable that during these years of pioneer settlement and development the thought and activities of the people should be directed to those material and physical things necessary to the opening of the country and providing for its financial success and prosperity. Problems of transportation by rail and ocean, the construction of roads and bridges, development of markets and access to them for Western products, questions of credits and adequate banking facilities, mortgage loans and rates of interest, and all the other economic problems therefore loom large at present throughout the West, and the very fact that they call for so much consideration, agitation and legislation, has a tendency to create in the minds of people elsewhere a false idea that the people of the West are wholly material, even mercenary in their outlook, giving little thought to or having little regard for what are generally termed the finer and better things in life.

The surprising thing about Canada's prairie provinces is not that so much attention is necessarily devoted to the material development and well-being of the country, but that such a large amount of time, earnest thought and hard earned money is so freely given by Western people in these early days of their country's history to what are termed the finer arts, and to the development of a strong, intelligent and cultivated citizenship. It is one thing for old established, well settled and wealthy countries to erect and maintain great universities, museums of art, conservatories of music, symphony orchestras, etc., etc., but quite another thing for sparsely settled pioneer communities to do so.

Nevertheless on these prairie provinces greater attention is being paid to the provision of higher institutions of learning than in many old and wealthy countries, and even in these still pioneer days the work of collecting art treasures, establishing museums, and cultivating a popular taste for the best in literature and music is receiving increasing attention and support.

None of the older Canadian provinces are putting forth anything like the same effort in the encouragement of good music among the masses of the population as is carried on year after year in these prairie provinces through the instrumentality of the annual musical festivals. In the older provinces and in the states to the south, good music is, as a rule, provided through the benefactions of a few wealthy patrons. Here in the West, where people of great wealth are few and far between, these "finer" things can only be made possible through the self-denying service of the people themselves, maintained by the small contributions of all.

These annual musical festivals, which are increasing in popularity and attaining a higher standard of excellence year after year, are but the culmination of faithful, painstaking work on the part of scores of small musical organizations scattered throughout the cities, towns, villages and rural districts of the Canadian West, and all of which are constantly bringing real pleasure and profit to their respective communities. And what is being accomplished in the development of a popular taste for good music is to an increasing degree also being accomplished in the realms of literature and art.

The people of the West are not mere money grubbers. They are striving hard to attain to material prosperity, it is true, and they are insistent in their demands that those material things essential to the attainment of that object shall be provided. But such material prosperity is regarded by the vast majority of Western people merely as a means to an end, that end being the enrichment of the whole life of the people and the upbuilding of as fine a country and race of people as are to be found in the world. The fact that so much is now being done to achieve that result when the means for its accomplishment are so limited, speaks volumes for the ideals and aspirations of Western Canadians, and holds promise of a rich and wonderful future.

"Play Streets"

Where Automobiles Are Banned and Children Can Romp Without Fear of Death

In some cities of the United States the problem of safeguarding the lives of children has been solved by the designation of certain streets as "play streets." During certain hours of the day automobiles are denied access to these designated zones. The plan, it is said, has proved to be popular with the kiddies, their parents and the motorists themselves.—Hamilton Spectator.

62 Billion Tons of Coal Lie Under the Soil of Alberta

Sixty-two billion tons of coal, half of this amount recoverable, lie beneath the surface of Alberta soil, according to Prof. J. A. Allan, provincial geologist, and head of the department of geology of the University of Alberta, in a statement made before the Alberta coal commission. The commission was also told that \$12,000,000 had been lost by the abandonment of coal mines during the past 20 years. This loss is ascribed to loss of markets.

NEW STRENGTH FOR WEAK GIRLS

Can Be Had Through the Rich,
Red Blood Made By Dr. Williams' Pink Pills

There comes a time in the life of almost every girl when weakness attacks her. The strain upon her blood supply is too great, and there comes headaches and backaches, loss of appetite, attacks of dizziness, heart palpitation, a constant weariness and a tendency to a decline. All these symptoms may not be present in any particular case, but the presence of any one of them shows the necessity for prompt treatment. And the very best treatment is through the blood-making tonic qualities of Dr. Williams' Pink Pills. They are the one thing needed to maintain the health of growing girls and women of mature years.

Here is a bit of strong proof:—Miss Matilda Breen, King Highway, Newcastle, N.B., says:—"I was in an extremely run-down and nervous condition. I was losing flesh, had a poor appetite, always pale, and suffered frequently from headaches. In fact my condition can best be described as miserable. I had tried several treatments but they did not help me in the least. Then, reading one day about Dr. Williams' Pink Pills, I decided to try them. After using three boxes I was much improved, but continued until I had taken six boxes, with the result that I am now well and strong, with good color and a hearty appetite. In view of what Dr. Williams' Pink Pills have done for me I cannot recommend them too highly."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from "The Dr. Williams' Medicine Co., Brockville, Ont."

For Increased Pensions

Commons Passes a Resolution Amending the Pensions Act

A resolution to provide for amendments to the Pensions Act was introduced in the house by Hon. H. S. Beland, minister of soldiers' civil re-establishment. Among the amendments contemplated are provisions for a definite pension, irreducible for two years in cases of pulmonary tuberculosis; for increased pensions to mothers whose husbands are physically helpless, or in a dependent condition; and for conditions under which pension may be continued to dependent parents.

The resolution was carried without further discussion, and a bill based on it was given first reading.

Juvenile Migration

London Saturday Review Deals With This Important Question

The London Saturday Review, dealing with the subject of child immigration in Canada, says the annual reports of the chief inspector of British immigrants receiving homes show but little initiative and they carefully avoid criticism of the methods followed in connection with child immigration.

"Juvenile migration towards Canada," the Review says, "has too long remained only an adjunct to the work of reclamation of child life in the English and Scottish congested areas. These limitations should be removed and a state-aided and state-controlled system inaugurated that would be available for boys and girls of all classes."

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117½ Weland Avenue, St. Catharines, Ont., writes:—"I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine it just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I did not need any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

Support of all the automobile clubs throughout Canada will be solicited by the Automobile Club of British Columbia in an endeavor to obtain from the customs department an extension of the thirty-day automobile tourist permits, according to an announcement by F. J. Elkins, the club manager.

An Oil that is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far ahead enough to attest its excellence, for in all these countries it is on sale and in demand.

Requisite on the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

Quebec Man Absolutely Relieved Of Backache

Mr. Alfred Gagnon Recommends Dodd's Kidney Pills to All Who Suffer.

Moulins Borsimis, Que.—(Special).—"A few words about your Dodd's Kidney Pills. They have done me much good," states Mr. Gagnon, a well known and highly respected resident of this place.

"For pains in the back and kidneys, I have taken Dodd's Kidney Pills and they have done me good immediately. I always keep a box in the house. Today, thanks to your pills I am quite relieved of my trouble and recommend them to all who suffer. Kindly send me one of your almanacs."

Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthening them and putting them in condition to do their full work of straining the impurities out of the blood. Dodd's Kidney Pills have been in use in Canada for more than thirty years. They demonstrated their worth in the most serious forms of kidney disease, such as rheumatism, dropsy, diabetes, neuralgia and sciatica.

Ship Live Poultry To Holland

C. N. R. MAIN ESTIMATES ARE TO BE REDUCED

Ottawa.—While spiritedly defending the operation of the Canadian National Railways in his annual statement on this phase of the system in the House of Commons, and expressing the view that the showing of the system had, to date, been phenomenal, Hon. George P. Graham, minister of railways, announced reductions in the estimates for the railways, with a view to lightening the financial burden of the country. Ten millions is to be eliminated from the main estimates, and supplementary estimates for the system will not be pressed.

Mr. Graham felt that when all things were considered, the success achieved by the Canadian National was phenomenal. He declared no private company had to struggle under such difficulties as the Canadian National. At one of the most critical periods of the world, the Canadian National had been handed a disjointed mass of intricacies, the chief entities of which had been plunged into bankruptcy under private ownership. There seemed to be an idea that public ownership should, at a stroke, remedy all the delinquencies of private ownership, during the last half century.

Transportation companies should be judged by the service rendered, and by the cost. Mr. Graham compared the operation of American and Canadian railways.

"In Canada," he said, "both the great lines of railway are above criticism, and, in fact, one of the great difficulties of both the Canadian Pacific Railway and the Canadian National Railways in this country is that the service in quality exceeds the remuneration in quantity. The service to the Canadian people is altogether too good."

Favor Rural Credits

Two Senators Advocate the Adoption Of Government System

Ottawa.—Two speakers in the senate advocated the adoption by the government of a system of rural credits as a necessary aid to agriculture in the Dominion. Senator Mitchell believed that the scheme of credits recommended by Dr. Tory, president of the University of Alberta, would be successful in Canada. Senator Belmont said that rural credits was the most important and practical scheme before the country.

Senator Mitchell also believed it to be the best scheme until the government provided a better system of financing agriculture. If there was a system of rural credits to consolidate the farmers' debts and secure extended terms for repayment, they could remain on the land and redeem their investment, he said, but, if not, thousands would have to leave Canada. There was no chance of progress in Alberta without aid of this kind.

The party will carry a year's food supply.

Governor-General Byng To Make Tour Of West

Ottawa.—His Excellency the Governor-General will leave Ottawa on June 16 for a tour of Western Canada which will last a month. The itinerary will include stops at Winnipeg, Edmonton, Robson, B.C., New Hazelton, Prince Rupert, Vancouver, Victoria and Calgary. The trip west will be made by the Canadian National Railways, and the return trip over the lines of the Canadian-Pacific Railway.

Death Of Lord Leverhulme

Famous Soap Manufacturer Passes Away At Age Of 74

London.—Viscount Leverhulme, famous soap manufacturer and philanthropist, who has been ill with pneumonia for some days, died on May 7. He was 74 years of age.

Lord Leverhulme's private inclinations, as well as his business responsibilities, constituted him a great traveller. He frequently visited Canada, and when in Toronto in 1919 he took occasion to reiterate his views on the advantages of a six-hour working day as helpful to production. On his return from the United States a year later he declared that if Britain followed the States in going dry she could pay her debt to the States in five years.

In his later years, Lord Leverhulme suffered from extreme deafness. He had been a widower for a good many years. His heir, the Hon. William Hulme Lever, is acting chairman of the business which his father founded.

Briquetting Test To Be Made Under New German System

Regina.—One of the investors most interested in the forthcoming briquetting tests in Germany on Saskatchewan lignite coal, Hugh Sutherland, Winnipeg, together with a party of industrial engineers, has left for Germany to witness the tests.

The fifty tons of coal shipped from Blenheim to Rotterdam for the experiments have reached the Dutch port safely, according to a cable received by Thos. M. Molloy, commissioner of the provincial bureau of labor and industries.

The briquetting tests will be conducted under the Thyssen and Stinnes systems.

London.—The names of some 50,000 soldiers from all parts of the empire will be inscribed on the Memorial Arch at Menin Gate, Ypres, which is shortly to be erected by the Imperial war graves commission in commemoration of the missing soldiers of the Ypres salient. There will probably be 8,000 Canadian names and the high commissioner for Canada learns that approval has now been given to the positions allocated for the inscription of these names.

London.—Lord Damesfort, famous British lawyer, will move in the house for appointment of a select committee to investigate the necessity of changing the law which makes a husband liable for damages for his wife's misdeeds. Algarsson Polar Trip Held Up For Lack of Funds

London.—The race to the North Pole between Amundsen and Grettir Algarsson of Vancouver, the mere announcement of which stirred two continents a few weeks ago, is in danger of being called off. Amundsen seems likely to have the race all to himself.

The construction of the necessary airship has been delayed for some unexplained cause, but at the Liverpool yard, where Algarsson's craft is to be built, it is said that the Vancouver man will not make the trip this year, the reason assigned being that the necessary financial backing is not forthcoming.

Meanwhile reports from Copenhagen show that Amundsen is all ready to leave and those Canadians on this side who had set their hearts on seeing Algarsson win the honors, are naturally disappointed. Efforts are, however, still being made to ensure that Algarsson will be able to make the attempt.

Friendly Act Toward Germany

New Represented On Committee Through Suggestion By France

Geneva.—France made a friendly gesture to Germany at the opening of the session of the conference on the control of traffic in arms, when M. Paul Seneour moved that the steering committee of the conference be enlarged from seven to nine members, so that all sections of the world might be represented, particularly non-members of the League of Nations. Germany, chiefly as a result of this motion, is now represented on the committee.

Considering Trade Treaty With Finland

Question Will Be Submitted to Parliament Shortly

Ottawa.—A trade treaty between Canada and Finland shortly will be submitted to parliament. The acting minister of finance, Hon. J. A. Robb, has given notice of his intention of moving the ratification of a convention to extend "most favored nation" treatment to Finland. Mr. Robb also has given notice of a bill to ratify the trade agreement of July 11, 1924, between Canada and the Netherlands.

Propose Amendments To Canada Grain Act

Ottawa.—Amendments to the Canada Grain Act will be brought down in the House of Commons shortly. Hon. T. A. Low, minister of trade and commerce, has given notice of a resolution, preliminary to legislation, "to make further provisions in respect to the handling and marketing of grain or incident to the buying, selling or transportation of grain; the grading and weighing of grain; the handling of grain in and out by country elevators; the operation, management and control of terminal, public and private elevators; the storing, cleaning and binning of grain, the mixing of grain, and the disposition of screenings."

Railway Co-operation

Pres. Beatty of the C.P.R. Says This Policy Will Not Alone Solve Difficulties

Montreal.—Addressing shareholders of the Canadian Pacific Railway at the annual meeting here, E. W. Beatty, president of the company, declared that although the Canadian Pacific was in favor of a co-operative policy, which would eliminate as far as possible duplicate train service on the lines of that railway system and of the Canadian National Railways, such a policy was not sufficient to constitute a solution of Canada's railway difficulties.

This, he said, was the only proposal that had been discussed between the Canadian Pacific and the Dominion Government and no situation had arisen which should give the shareholders of the company any reason to believe that their interests would be adversely affected in finding a solution to Canada's problems, as regards the Canadian National Railways.

Earthquake Must Have Occurred At Sea

No Report Received of Terrific Tremors Recorded at Ottawa

Ottawa.—Somewhere in the world there has been a terrific earthquake, which, if it occurred in an inhabited portion of the globe, must have caused damage akin to that which was experienced in the terrible earthquake in Tokio.

This is indicated by the earth tremors which were recorded May 5 and 6 at the Dominion Observatory. The earth shocks were of such intensity and of so great a frequency that the officials at the observatory have been unable to determine the distance to the epicenter.

Press dispatches have not carried any news as to the occurrence of an earth tremor anywhere, which leads to the belief it may have occurred somewhere at sea.

Opposes Free Export Of Arms

Latin-American View Given In Speech Before Arms Control Conference

Geneva.—Through the voice of Dr. Gustav Guerrero, of Salvador, noted jurist, who spoke before the international conference on the control of the traffic in arms and munitions, Latin-America told the world that arms should henceforth not be exported freely to countries in the throes of a revolution, but only to governments which have been chosen by constitutional means.

This opinion is thought to represent the views of many South and Central American states, and if put into effect implies an important amendment to the draft convention before the conference, which permits the exportation of arms as soon as the manufacturing country has recognized the government of the purchasing country.

Appeals To Farmers

Quebec.—An appeal to all French-Canadian farmers, especially the younger element, to remain at home and till the soil instead of going away and attempting to wrest a living from a big city was made by Henri Bourassa, managing editor of Le Devoir, Montreal, in an address here.

Canoelist Reaches Rome

Rome.—George H. C. Smythe, Canadian canoelist, paddling from London to Rome, arrived here May 6, and was greeted by a large and enthusiastic crowd.

ROBERT FORKE REMAINS LEADER OF PROGRESSIVES

Ottawa.—Robert Forke has decided to remain as leader of the Progressive party. J. Fred Johnston has resigned as chief whip, and is replaced by C. W. Stewart, Humboldt.

This was officially announced following a caucus of the Progressive party.

This ends the long series of Progressive deliberations which have been under way, in one form or another, since the vote on the budget. At the first formal caucus, Robert Forke submitted a virtual ultimatum, insisting on changes in the parliamentary organization of the party as conditional on his retention of the party leadership.

J. Fred Johnston, of Last Mountain, who is succeeded as chief whip by Mr. Stewart, of Humboldt, was one of the 17 Progressives who voted with the government on the main budget motion.

There was talk after the caucus that some of the 17 may now throw in their lot with the government. A few of them left the caucus before the deliberations ended, but gave no intimation of any intentions to leave the Progressive Party.

Seek Co-operation Of Federal Government

Company Would Erect Pulp and Paper Mill In Manitoba

Ottawa.—Co-operation of the Federal Government to provide sufficient supplies of pulpwood for the enterprise is being sought by the Spanish River Pulp and Paper Company who, in conjunction with J. D. McArthur, have announced their willingness to erect a 200-ton pulp and paper mill in Manitoba. They are willing to pay a price equal to the stumpage of pulpwood to competing mills in Northern and Northwestern Ontario and to leave subsequent prices to be fixed by the crown.

These concessions are sought, the companies claim, only to ensure the getting of a sufficient supply of pulpwood to keep the mill going a number of years. The expenditure on the contemplated mill would be about \$5,000,000 or \$6,000,000.

Rhineland Radio Ban

Berlin.—The Socialists have introduced an interpellation in the Reichstag calling attention to the regulations which still prohibit the use of radio in the Rhineland occupied territory, and asking the government upon what authority "this insulting measure" by the army of occupation is based.

Picture May Be Worth Million
Work of Old Master Bought in Junk Shop for \$7.00

The picture owned by Mrs. Stuart Livingstone, Vancouver, showing a troubador in drinking pose, which she turned over some months ago to Signor Farina, an authority on the work of the old masters, for inspection, has been pronounced by him to be a genuine Velasquez and worth perhaps a million dollars.

The picture was bought in a Winnipeg junk shop 40 years ago for \$7.

Copyrighted, 1922, by Rafael Sabatini
"CAPTAIN BLOOD," a Vitaphone picture with J. Warren Kerrigan in the title role, is an adaptation of this thrilling novel.

CHAPTER XIX.—Continued.

Things had not sped at all well with him in the past fortnight, since his acceptance of the King's commission. There had been trouble with Bishop from the moment of landing. As Blood and Lord Julian had stepped ashore together they had been met by Colonel Bishop, who took no pains to dissemble his chagrin at the turn of events and his determination to change it.

Blood's thoughts were upon this and other things as he lounged there on the day-bed. He had been a fortnight in Port Royal, his ship virtually a unit now in the Jamaica squadron. And when the news of it reached Tortuga and the buccaneers who awaited his return, the name of Captain Blood, which had stood so high among the Brethren of the Coast, would become a byword. And for what had he placed himself in this position? For the sake of a girl who avoided him so persistently and intentionally that he must assume that she still regarded him with aversion. Nor was that the worst of it. He was allowed plainly to perceive that it was the graceful, elegant young trifter from St. James's, Lord Julian Wade, to whom her every moment was devoted. What chance had he, a desperate adventurer with a record of outlawry, against such a rival as that; a man of parts, moreover, as he was bound to admit?

A boat that had approached unnoticed from the shore came scraping and bumping against the great red hull of the Arabella. Captain Blood rose, tall, active and arrestingly elegant in a scarlet, gold-laced coat that advertised his new position.

"A note for you from the Deputy-Governor," said Jeremy Pitt shortly, as he proffered a folded sheet.

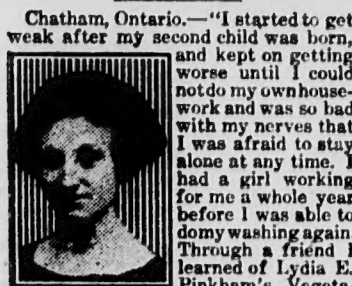

Blood broke the seal and read. "It is a very peremptory summons," he said, and passed the note to his friend.

The young master's grey eyes skimmed it.

"You'll not go?" he said, between question and assertion. Why did ye let Wolverstone and the others go?"

HER NERVES BETTER NOW

Received Much Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ontario.—"I started to get weak after my second child was born, and kept on getting worse until I could not do my own housework and was so bad with my nerves that I was afraid to stay alone at any time. I had a girl working for me a whole year before I was able to do my washing again. Through a friend I learned of Lydia E. Pinkham's Vegetable Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1922. I am still doing my own work and washing. Of course, I don't feel well every day because I don't get my rest as the baby is so cross. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am going to keep on with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can use this letter as a testimonial and I will answer letters from women asking about the Vegetable Compound."

he cried, with a touch of bitterness "You should have seen the danger."

"How could I in honesty have detained them? It was in the bargain. Besides, how could their staying have helped me?" And as Pitt did not answer him: "Ye see?" he said, and shrugged. "I'll be getting my hat and cane and sword, and go ashore in the cockboat. See it manned for me."

"Ye're to deliver yourself into Bishop's hands," Pitt warned him.

Blood knew as well as Pitt that in going ashore that morning he carried his life in his hands. Walking leisurely, he skirted the embattled wall and passed through the great gates into the courtyard. On his right stretched a spacious garden, beyond which rose the white house that was the residence of the Deputy-Governor. In that garden's main avenue, that was fringed with palm and sandalwood, he had caught sight of Miss Bishop alone. He crossed the courtyard with suddenly lengthened stride.

"Good morning to ye, ma'am," was his greeting, as he overtook her; and, hat in hand now, he added on a note of protest: "Sure, it's nothing less than uncharitable to make me run in this heat."

"I beg that you will let me pass"

"Why do you run, then?" she asked him coolly, standing slim and straight before him, all in white and very maidenly save in her unnatural composure. "I am pressed," she informed him. "So you will forgive me if I do not stay."

"You were none so pressed until I came."

"Since you perceive it, sir, I wonder that you trouble to be so insistent."

That crossed the swords between them, and it was against Blood's instincts to avoid an engagement.

"Faith, you explain yourself after a fashion," said he. "But, since it was more or less in your service that I donned the King's coat, you should suffer it to cover the thief and pirate."

She shrugged and turned aside, in some resentment and some regret. Fearing to betray the latter, she took refuge in the former. "I do my best," said she.

"So that ye can be charitable in some ways!" He laughed softly. "Glory be, now, I should be thankful for so much. Maybe I'm presumptuous. But I can't forget that when I was no better than a slave in your uncle's household in Barbadoes, ye used me with a certain kindness."

"Why not? In those days you had some claim upon my kindness. You were just an unfortunate gentleman then."

"And what else would you be calling me now?"

"Hardly unfortunate. We have

heard of your good fortune on the seas; how your luck has passed into a byword. And we have heard other things; of your good fortune in other directions."

She spoke hastily, the thought of Mademoiselle d'Ogeron in her mind. And instantly would have recalled the words had she been able. But Peter Blood swept them lightly aside, reading into them none of her meaning, as she feared he would.

"Aye; a deal of lies, devil a doubt, as I could prove to you."

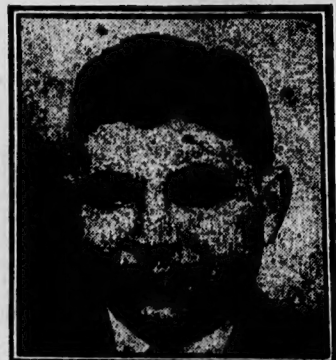

"I cannot think why you should trouble to put yourself on your defense," she discouraged him.

"So that ye may think less badly of me than you do."

"What I think of you can be a very little matter to you, sir."

"Can ye say that now? Can ye say that, beholding me in this livery of a service I despise? Didn't ye tell me that I might redeem the past? It's little enough I am concerned to redeem the past save only in your eyes. In my own I've done nothing at all that I am ashamed of, considering the provocation I received."

Conquers Bad Breath and is Popular Again

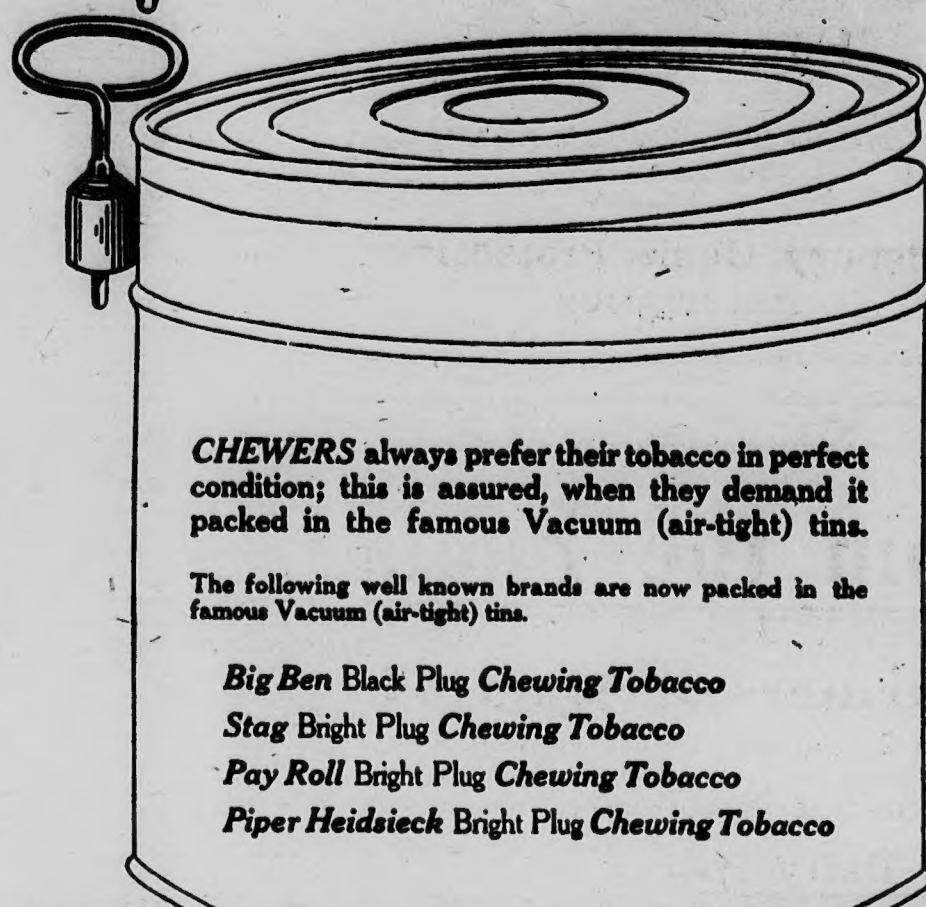

"The day I started taking Carter's Little Liver Pills," says Mr. John A. Perry of New York City, "my habitual bad breath and bad stomach stopped. I strongly recommend them to all those afflicted with these nasty troubles. I assure you that my own case was a bad one, causing me untold embarrassment, and Carter's helped me right from the start."

Bad breath comes from sour stomach and can usually be relieved quickly by Carter's Little Liver Pills.

They are wonderful for constipation, sick-headache and indigestion and they physic the system in a mild and gentle manner, no bad after effects.

"I—I can't think why you should speak to me like this," she said, with less than her earlier assurance.

"Ah, now, can't ye, indeed?" he cried. "Sure, then, I'll be telling ye."

"Oh, please!" There was real alarm in her voice. "I realize fully what you did, and I realize that partly, at least, you may have been urged by consideration for myself. Believe me, I am very grateful. I shall always be grateful."

"But if it's also your intention always to think of me as a thief and a pirate, faith, ye may keep your gratitude for all the good it's like to do me."

A livelier color crept into her cheeks. But, if she resented his tone and his words, she stifled her resentment. She realized that perhaps she had herself provoked his anger. She honestly desired to make amends.

"You are mistaken," she began. "It isn't that."

"What is it, then?" quoth he, and added the question: "Lord Julian? Ooh, be frank with me," he urged her, unpardonably. "T" will be a kindness, so it will."

"You—you are quite insufferable," she said. "I beg that you will let me pass."

"I'll not be detaining you any longer, ma'am. After all, the cursed thing I did for nothing can be undone. Ye'll remember afterwards that it was your hardness drove me."

"You take that tone! You dare to take that tone!" she cried, astounding him by her sudden vehemence. "You have the effrontery to upbraid me because I will not take your hands when I know how they are stained; when I know you for a murderer and worse?"

"A murderer—?" he said at last.

"Must I name your victims? Did you not murder Levasseur?"

"Levasseur? He smiled a little. "So they've told you about that!"

"Do you deny it?"

"I killed him, it is true. I can remember killing another man in circumstances that were very similar. That was in Bridgetown on the night of the Spanish raid. Mary Trill would tell you of it. She was present."

He clapped his hat on his head with a certain abrupt fierceness, and strode angrily away, before she could answer or even grasp the full significance of what he had said.

Liquor Manufacture in Canada
Canada's output of hard liquor continues to increase. In the fiscal year 1924, 4,411,896 proof gallons of spirits were actually manufactured in Canadian distilleries, compared with 3,828,879 in 1923.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them, Mrs. Jos. T. Tinsley, St. Joseph, Mo., writes:—"I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.
